From the Secretary to the Chief Commissioner of Mysore, General Department, To the Secretary to the Government of India, Foreign Department, No. 6297—G. 112, dated Camp Malebennur, 2nd December 1879.

I am directed by the Chief Commissioner to submit for the sanction of His Excellency the Viceroy and Governor General in Council, a proposition statement for increasing the permanent Warder Establishment of the Central Jail at Bangalore, and of the District Jails at Kolar, Shimoga and Chikmagalur.

The proposal is made, I am to state, in accordance with the opinion expressed and recorded at page 116 of the Report of the Jail Conference, 1879, which received the assent of Government in Resolution No. 534 and 10—535-545, dated 30th April 1878, para 6, and I am directed to explain for the information of Government that there is always maintained in the Jails above named a contingent guard for guarding extramural laborers of whom, it is found by experience, the strength by which it is now proposed to increase the permanent Warder Establishments is constantly maintained. To convert this number of 'contingent guard' into permanent establishment does not therefore entail immediate extra expenditure, but by bringing the men on to the permanent staff they will be placed in a more favorable position and be able to serve for pensions and gratuities, a circumstance which will enable the Superintendents of Jails to secure the services of a superior and more trustworthy set of men.

Statement of Proposition for revision of Establishment in the Bangalore Central Jail and in the District Jails of Kolar, Shimoga and Kadur.

Proceedings of the Chief Commissioner of Mysore in the General Department, (Judicial),—dated 4th February 1880.

From the Under-Secretary to the Government of India, Foreign Department, To the Chief Commissioner of Mysore, No. 182 G. G., dated Fort William, the 23rd January 1880.

In reply to your Secretary's letter No. 6297—G. 112, dated 2nd December 1879, I am directed to say that the Governor General in Council sanctions the increase to the permanent Warder Establishment of the Central Jail at Bangalore, and of the District Jails at Kolar, Shimoga and Chikmagalur, as therein proposed.

No. 7951—JUDL. 166, DATED BANGALORE, 3RD FEBRUARY 1880.

ORDER.—The above are communicated for information and guidance to the Inspector General of Prisons and the Deputy Accountant General.

W. J. CUNINGHAM,
Secretary.

To—The Inspector General of Prisons.
" Deputy Accountant General of Mysore.

READ—

Letter No. 332, dated 5th January 1880, from the Deputy Commissioner, Chitaldroog District, reporting that a suit instituted by a pauper in the Court of the Subordinate Judge of that District was dismissed for default and that the Judge asked the Deputy Commissioner to recover from the plaintiff, the Court fee of Rs. 75, and enquiring if the Deputy Commissioner could recover the amount without the intervention of the Court, and that if he could not do so, by whom the application should be made to the Court and how the costs of the application should be met.

No. 8052—JUDL. 167, DATED BANGALORE, 4TH FEBRUARY 1880.

ORDER.—The Deputy Commissioner of Chitaldroog is informed that on the understanding that the Court has ordered the pauper plaintiff to pay costs under Section 412 of the Code of Civil Procedure and that the plaintiff has failed to comply, he should ascertain whether there is any probability of recovering the amount from him, and if so, he should instruct a Pleader to apply in Court for execution. The costs of the application will be recovered through the Court together with the amount for which application is made. The Court fees and costs in suits by paupers can only be recovered through the Court, and if, as the Chief Commissioner understands, the practice exists in any District, of the Deputy Commissioner recovering the amount of his own authority without the intervention of the Court, it should be stopped.

2. The attention of the Deputy Commissioner of Chitaldroog is drawn to the fact that his letter above read is addressed to the Secretary, General Department, and on the covering docket is addressed to the Secretary, Revenue Department, and he is requested to enjoin greater care on the part of his subordinates.

W. J. CUNINGHAM,
Secretary.

To—The Judicial Commissioner in Mysore.
" District and Sessions Judges.
" Deputy Commissioners of Districts.
" Subordinate Judges.

Proceedings of the Chief Commissioner of Mysore in the General Department, (Judicial),—dated 18th February 1880.

From the Under-Secretary to the Government of India, Foreign Department, To the Chief Commissioner of Mysore, Political No. 29, I. P., dated Fort William, the 7th January 1880.

I am directed to acknowledge your Secretary's letter No. 3223—55, dated 15th July 1879, upon the subject of the extension of the Indian Arms Act of 1878 to Mysore.

2. In reply, I am to say that as the amended Notification forwarded with your letter does not entirely meet the requirements of the case, the Notifications Nos. 27 and 28, dated to-day, have been prepared and published in the *Gazette of India* of the 10th January and should now be republished in the *Mysore Gazette*.

3. With reference to paragraph 3 of your Secretary's letter under reply, I am to say that the Governor General in Council is pleased, in exercise of the power reserved by Rule 7 of the Rules under Section 17 of the Indian Arms Act of 1878, published under Home Department Notification No. 518, dated 6th March 1879, specially to invest the Chief Commissioner for the time being of Mysore, with the power of granting licenses to export arms and ammunition from British India into Mysore, on the understanding that this power does not extend to cannon or rifles as specially excepted under Rule 5 of Paragraph VI of Home Department Notification quoted above, for importation into British India by land, or to Military stores of any kind. The licenses granted under this authority should be prepared in Form V as prescribed in Rule 7 cited above ; the words "Chief Commissioner of Mysore" being substituted for the words "Secretary to the Government of India in the Foreign Department."

Foreign Dept., Political, Notification No. 27, I. P., dated Fort William, the 7th January 1880.

The Governor General in Council is pleased to extend Act No. XI of 1878 (the Indian Arms Act, 1878), to the Territories of Mysore, subject to the following modifications, *viz.* :—

(1). The first paragraph and clause (*a*), section one, section two, sections six to nine (inclusive), the explanation in section ten, section eleven, clause (*c*) in section nineteen, and the second schedule, shall be omitted.

(2). The words "import, export" in section one, clause (*b*), the words "to Her Majesty" in sections fourteen and sixteen, the words "or section six" in clause (*d*), section seventeen, the words "or Commissioner of Police in a Presidency Town" in section eighteen, the reference to clause (*c*) of section nineteen in section twenty, the words "or, in a Presidency Town, of the Commissioner of Police," in section twenty-nine, and the words "or the Presidency Magistrates' Act, 1877," and "or Act" in section thirty, shall be omitted.

(3). In section eighteen for the words "Magistrate or Commissioner," the words "or Magistrate," and for the word "its" each time it occurs, the word "his" shall be substituted.

(4). For the words "British India" and "Local Government," wherever" they occur, the words "Territories of Mysore" and "Chief Commissioner of Mysore" shall be respectively substituted.

Foreign Dept., Political, Notification No. 28 I.-P., dated Fort William, the 7th January 1880.

In continuation of Notification No. 27 I. P., dated to-day, the Governor General in Council is pleased, under Section 27 of the Indian Arms Act, 1878, to exempt in the Territories of Mysore from the operations of all prohibitions and directions contained in Sections 13, 14, 15 and 16 of the said Act, other than those referring to cannon, articles designed for torpedo service, war-rockets, and machinery for the manufacture of arms and ammunition, the undermentioned persons, namely :—

(1) All Maharajas, Rajas, Nawabs, Members of any Order of Knighthood ; all persons bearing a title conferred by the Government of India ; all persons who have been granted a sword in Public Durbar ; all persons who received certificates on the 1st January 1877 ; all persons who are exempted from personal attendance at the Civil Courts.

(2) All Members or ex-Members of the Council of the Governor General or of the Governors of Madras or Bombay, or of the Council of the Lieutenant-Governor of Bengal.

(3) All Military and Naval Officers, all Soldiers, Sailors, Volunteers, Police Officers, Forest Officers, Postal Officers, Jail Officers, serving the Government.

(4) All Magistrates, Justices of the Peace, Honorary Magistrates, and Judicial Officers of or above the rank of Munsiff.

(5) All European and East Indian subjects of Her Majesty the Queen Empress, all Armenians, and all Americans, and Europeans not British-born subjects of Her Majesty who are temporarily residing or travelling in Mysore.

(6) All pensioned Officers of the Native Army, and pensioned Officers of the Civil Departments who, when employed, were exempt.

(7) The following personages and their retainers :—

Arsus and relatives of His Highness the Maharaja, subject to such orders as the Chief Commissioner may issue regarding the number, personages and retainers to be included under this head.

(8) Land-holders and members of Municipal Committees of approved loyalty and of good position, according to lists that may from time to time be issued by the Chief Commissioner.

(9) All Village Patels, Talavars and other Rural Police.

(10) All persons of Coorg race and all jamma-tenure-holders in Coorg, who by their tenures are liable for Police and Military duties.

(11) All Revenue Officials and Postal Runners in frontier or wild districts, where the superior Departmental Officers direct them to carry arms on duty.

II. The Governor General in Council is pleased, under Section 27 of the said Act, to exclude from the operation of any prohibition and direction contained in the Act—

Spears of all kinds.

III. The Governor General in Council is pleased, under Section 17 of the said Act, to make the following Rules, determining the officers by whom, the form in which, and the terms and conditions on and subject to which, licenses shall be granted :—

RULES.

Transport.

2. No arms, or ammunition, or military stores shall be transported in any part of the Territories of Mysore without a license in Form I appended to these Rules. The license will be granted by the Magistrate of the District. If the articles are to be consigned to a place beyond the jurisdiction of the officer granting the license, the consent of the Magistrate of the District to which the consignment is made must be obtained before the license is issued. Such consent may be obtained by the person applying for the license, or the District Magistrate, to whom application for the license is made, may forward the proposed license to the officer whose consent is required, and on receiving reply should either issue the license to the applicant, or inform him that his application for a license to transport arms, &c., had been refused.

3. Persons lawfully entitled to possess arms, or to go armed, are permitted to transport, in any part of the Territories of Mysore, arms or ammunition in reasonable quantities for their own use. Any person abusing this exemption and transporting such articles otherwise than in reasonable quantities for his own use, will be held to have contravened this rule, and will, on conviction, become liable to the penalties under Sections 18 and 19.

4. A license to transport arms or ammunition, or military stores, is void if the consignment breaks bulk at any place short of the district for which it may be granted. A license to transport shall ordinarily not be made valid for more than twice the period actually required for the conveyance of the articles to their destination by the intended route.

5. Persons desirous of transporting arms, ammunition, or military stores must apply in writing to the officer authorized to grant transport licenses from the place of despatch. The application must specify—

(*a*)—the place to which the articles are to be transported, the route of transport, and the probable time occupied in the journey ;

(*b*)—the quantity, description, average price, and the purpose of each kind of arms or ammunition ; or

(*c*)—whether the applicant desires that the officer to whom he applies should obtain the consent of the Magistrate of the place of consignment (if the applicant has obtained such consent, the evidence of such consent must be produced).

6. Persons transporting arms, ammunition, or military stores under a license must write legibly on the cases or packages containing such articles an account of their contents.

7. Within six days of the articles reaching their destination the consignee must deliver the transport license to the Magistrate of the District. The officer to whom the transport license shall be delivered must satisfy himself that the articles transported to his district correspond with the entries in the pass, and that any deficiency is properly accounted for.

Manufacture and Sale.

8. Licenses to manufacture, convert, keep and sell arms or ammunition or military stores may be granted by the Magistrate of the District. They shall be in Forms II and III appended to these Rules. The fee payable in stamps shall be twenty rupees in respect of licenses to manufacture and sell, &c., and ten rupees in respect of licenses to keep and sell, &c. Every license-holder under this rule shall keep, in such form as the Chief Commissioner may from time to time direct, a record and account of all stock, and of all sales of arms and ammunition or sulphur, which he may keep or sell. He shall exhibit his stock and his record, or accounts of stock and sales to any Magistrate, or to any Police Officer not below the rank of Inspector. Magistrates and all Police Officers not below the rank of Inspector are hereby empowered to enter and inspect any premises within their several jurisdictions in which arms or ammunition or sulphur are manufactured or kept, and to examine the stock and accounts of receipts and sales of arms, ammunition and military stores. Any person licensed to sell arms and ammunition shall affix a board on a conspicuous part of his shop, or usual place of business, and shall cause to be painted thereon in large letters in English, or in the vernacular of the district, his name and the words " licensed to manufacture," or " licensed to deal in arms, ammunition, and military stores," as the case may be. He shall also have a copy of section 28 of the Indian Arms Act posted up, in the vernacular of the district or in English, on some conspicuous part of his usual place of business.

Possession of Arms and going armed.

9. Licenses to possess cannon shall not be granted, save under the special order of the Governor General in Council, certified under the signature of the Secretary to the Government of India in the Foreign Department. A copy of such license, so certified, must be sent immediately on its issue to the District Magistrate of the place where the cannon is to be kept.

10. Licenses to possess arms and ammunition in reasonable quantities and to go armed for purposes of sport, of protection, or of display, may be granted by the Magistrate of the District in Form IV. Such licenses shall be liable to a fee of eight annas for each weapon in disarmed districts, and to a fee of four annas for each weapon in districts which have not been disarmed. Such a license will authorize its holder to carry the arms described in the license on occasions when they may be reasonably required for the purposes named in the license. But the holder, unless specially authorized by the Magistrate, must not go armed in railway carriages, to fairs, religious processions, or other public assemblages. Licenses granted under this rule shall, on countersignature by the Commissioner of the Division, or other officer authorized in this regard by the Chief Commissioner where there are no Commissioners, be valid for all the districts of the Territories of Mysore.

11. The Magistrate of the District may grant a license in Form V for a journey, specifying the direction of the journey and the period it will occupy. Such license will be valid in other jurisdictions only for such journey and for such period, and will be liable to a fee of four annas for each weapon. Holders of licenses under this rule, unless specially authorized by the officer granting the licenses, must not go armed in railway carriages, to fairs, religious processions, or other public assemblies.

12. Licenses to *possess* fire-arms or ammunition or military stores in districts which have not been disarmed may be granted in Form VI without fee. Such licenses will not authorize the holders to go armed or to carry arms. In districts which have not been disarmed, as well as in disarmed districts, licenses to possess and carry arms (Form IV) will be liable to fees as stated in Rule 10.

13. Licenses for possession of arms and ammunition may be granted in Form VII without fee, and for a term of five years, to persons who require arms for the destruction of wild animals which do injury to human beings, cattle, or crops. Such license will be valid only in or on the immediate confines of the district for which it is granted. It will be subject to the conditions that the license and the weapon it covers is shewn once a year, between the 15th November and the 31st December, to the nearest Magistrate ; that the weapon becomes confiscated to Government directly it is sold or seized in execution of any debt ; and that such weapon is carried only on occasions when it is to be used *bonâ fide* for the destruction of wild animals. Holders of licenses under this rule must not go armed in railway carriages, to fairs, religious processions, or other public assemblages.

General.

14. The fees leviable under these rules shall be taken in the shape of " impressed stamps." Ordinarily the applications for licenses or renewals of licenses shall be written on " impressed stamps " of value equal to the amount of fee leviable in respect of such licenses or renewals ; and the licenses will be issued on plain paper. But when the licenses themselves are written or printed on " impressed stamps," the applications may be on plain paper. When an application for a license is written on an " impressed stamp," and the license is refused, the value of the stamp will be refunded to the applicant.

15. Applications for licenses in respect of which no fee is leviable, or regarding licenses on which the full fee has been paid, shall be considered to be applications within meaning of Schedule II, Article I, Clause (*a*) of " the Court Fees Act, 1870," and shall bear a court fee stamp of one anna.

16. All licenses under Rules 8 and 10 shall expire on the 31st December of the year for which they may be issued ; licenses under Rule 13 shall expire on the 31st December of the 5th year of their currency. But the currency of a license may be renewed, previous to its expiration, on payment of a second fee by the same authority that granted it.

17. All licenses shall be given and held subject to the conditions endorsed on the reverse and subject to these rules, and subject to the provisions of the Act. Licenses under Rules 10 and 13 may be granted, subject to the observance of a close season in the pursuit of game birds or animals that do not injure either men, or cattle, or crops. The limits of the close season will be decided by the Chief Commissioner of Mysore, and the condition regarding such close season, if imposed, shall be endorsed on the reverse of the license.

18. Any person holding a license, or acting under a license, granted in accordance with these rules, shall be bound to produce the same, when called upon to do so by any Magistrate or by any Police Officer in charge of a Police Station, or by any Police Officer of higher rank.

19. Licenses granted for use within a district shall be written or printed in the vernacular language of such district. Licenses for use beyond the district where they may be granted shall be in English and may be in the vernacular as well.

20. A license granted under these rules will cover only the weapons or other articles and the persons named therein, unless the officer granting a license under Rule 10 or 11 deems it expedient to include the retainers of any person named in the license ; in such case the entry on the face of the license shall declare how many and whose retainers are covered by the license.

21. Any officer empowered to grant a license under these rules may, at his discretion, refuse to grant, to renew, or to consent to the issue of, a license, or may refer any application for the orders of the Chief Commissioner.

22. All Magistrates or other authorities acting under these rules will perform their duties, subject to the control of their executive superiors and of the Chief Commissioner.

Proceedings of the Chief Commissioner of Mysore in the General Department, (Judicial),--dated 18th February 1880.

This license is subject to all the provisions of the "Indian Arms Act, 1878," and of the Rules framed thereunder.

This license is void after the expiration of the period named, or if bulk is broken before reaching the place of destination, or if the articles are taken by any route other than is specified on the license.

The contents of each package covered by this license must be described in legible letters on the outside of such package.

The articles covered by this license will be delivered only to persons lawfully entitled to possess the same.

This license must be delivered to the Magistrate of the District to which the articles are consigned, and the articles must be available for exhibition to such Magistrate, within six days of the consignment reaching his district.

The officer granting this license must send a copy thereof on the day of issue to the Magistrate of the District as above described.

This license is given subject to the provisions of the "Indian Arms Act, 1878," and the Rules framed thereunder. The special attention of the holder is drawn to Sections 16, 21, 22 and 28 of the Act.

The license-holder shall keep records and accounts of all arms made or converted; of all ammunition manufactured; of all stock in hand, and of all sales in such form as the Local Government may from time to time direct.

The license-holder shall exhibit his stock and his books of manufacture and sales to any Magistrate or to any Police Officer not below the rank of Inspector when such officer may call upon him so to do.

The license-holder shall affix to his shop or place of business a signboard as required by Rule 8, and shall post up in his shop a copy of Section 28 of the Act.

This license is given subject to the provisions of the "Indian Arms Act, 1878," and the Rules framed thereunder. The special attention of the holder is drawn to Sections 16, 21, 22 and 28 of that Act.

The license-holder shall keep records and accounts of all arms and ammunition in stock and of all sales, in such form as the Local Government may from time to time direct.

The license-holder shall exhibit his stock, his records of sales, &c., to any Magistrate, or to any Police Officer not below the rank of Inspector, when such officer may call upon him so to do.

The license-holder shall affix to his shop a signboard as required by Rule 8, and shall post up in his shop a copy of Section 28 of the Act.

This license is granted subject to the provisions of the "Indian Arms Act, 1878," and the Rules framed thereunder.

It covers only the persons and the arms named therein, unless it is certified to cover retainers of the holder.

It is void after the date named therein.

It extends only to the place or district named therein, unless countersigned for the whole province by the Commissioner or other superior officer.

It authorizes the holder or persons acting under it to go armed within the place or district named, for *bonâ fide* prosecution of the purpose named on the license; but it does not permit the holder or persons aforesaid to go armed in railway carriage, to fairs, religious processions, or other public assemblages.

The holder is bound to observe a close season as prescribed by the Local Government in respect to the undermentioned game birds and animals which do no injury to men, cattle or crops.

Specification of animals or birds.	Close season.

FORM V.

Fee four annas for each weapon payable in stamps for licenses granted in British India; free of all fee for licenses granted by Political Agents to subjects of Native States.

License to go armed—On a journey.

Name, &c., of license-holder, with particulars of his residence.	Number of retainers, if any, who may be covered by the license (Rule 20).	Description of arms and ammunition covered by the license. Seal.

Magistrate of the _____District.

Notes of Magistrate to whom the license and weapon are periodically shewn.

This license is granted subject to the provisions of the "Indian Arms Act, 1878," and the Rules framed thereunder.

The holder is bound to shew his license and weapon once a year to the Magistrate of _____

This license is void if the holder sells his weapon; if it is seized in execution of decree; if it is carried to any considerable distance beyond the limits of the places named in the license; or if he fails to shew it once a year to the Magistrate aforesaid.

It is void on the death of the holder.

The holder must not go armed in railway carriages, to fairs, religious processions, or other public assemblages.

The holder is bound to observe a close season as prescribed by the Local Government in respect to the undermentioned game-birds and animals which do no injury to men, cattle, or crops.

Specification of animals or birds.	Close season.

A. C. LYALL,
Secy. to the Govt. of India.

No. 8434—JUDL. 175, DATED BANGALORE, 18TH FEBRUARY 1880.

ORDER.—The Commissioner, Ashtagram Division, is requested to submit a list of Arsus, &c., to be exempted from the operation of certain portions of the Indian Arms Act XI of 1878, under clause 7 of para I in Foreign Department Notification No. 28 I. P., dated 7th January 1880, above quoted.

2. The Deputy Commissioners of Districts are requested to submit the names of land-holders, and the President, Bangalore Town and Cantonment Municipal Commissions, of members of Municipal Committees, whom they may consider deserving of the like exemption under the 8th clause of para I of the Notification referred to above.

3. District Magistrates are requested to use manuscript forms at present for licenses to be issued under the rules contained in the Notification above quoted, and to indent on this office for the number of printed forms they may require for the future.

4. Under Rule 17 of the rules above referred to, the Chief Commissioner has to determine the limits of a close season, and the beasts and birds to which it should apply. District Magistrates are requested to submit suggestions on these points.

READ—

Letter No. 389, dated 3rd February 1880, from the Deputy Commissioner, Chitaldroog District, requesting that pound-keepers under the Cattle Trespass Act be directed to send the fines collected by them to the Amildar in the first instance, to be disposed of by that officer under the general control of the District Magistrate.

No. 8635—JUDL. 8, DATED BANGALORE, 24TH FEBRUARY 1880.

ORDER THEREON.—The Chief Commissioner is pleased to direct, under Section 12 of Act I of 1871, (the Cattle Trespass Act), that the Amildar be *Ex-officio* the officer through whom all fines, &c., collected in the cattle pounds in his taluk, shall be sent to the District Magistrate. The cash received by the Amildar may be accounted for to the District Magistrate in the same manner as other Magisterial fines, and the remuneration of pound-keepers may be paid therefrom by the Amildar in the same way that the salaries of the officers in the interior are paid.

The unclaimed proceeds of sales of cattle held under Section 17 of the Act cannot however, be dealt with by the Amildar, as the Act contemplates such sums being kept in deposit by the Magistrate of the District, to whom claims regarding them have to be preferred.

GENERAL DEPARTMENT.

(JUDICIAL.)

TABULAR STATEMENT OF MATTERS OF ROUTINE FOR THE MONTH OF FEBRUARY 1880.

MYSORE.

No.	Subject and Order.	Date of Order.	Date of previous Orders.
1	In reply, the Judicial Commissioner was informed that the Chief Commissioner sees no reason to interfere with the execution of the sentence passed upon petitioner Holayara Putta, who has been sentenced to death in Kadur Sessions Case No. 13 of 1879.	2nd Feb. 1880.	
2	A notification investing Mr. T. Raghavendra Rao, Officiating Subordinate Judge, Kadur District, with the powers of a Magistrate of the 1st Class, together with certain additional powers, was gazetted.	Do do	
3	Copy of the Indian Christian Marriage Act XV of 1872 was, as requested, forwarded to the Deputy Commissioner of Kolar, with the intimation that with reference to the enquiry on the subject, a scale of fees to be charged under the Act is prescribed in the Notification of the Government of India, Foreign Department, dated 31st August 1875, but up to the present time no fees have been paid to Marriage Registrars in Mysore.	Do do	
4	In reply, the Deputy Commissioner of Mysore was informed of the despatch to him of a copy of the crime register referred to on the 29th ultimo by the Superintendent, Mysore Government Press.	Do do	
5	A notification appointing Mr. T. Raghavendra Rao, Officiating Subordinate Judge, Kadur District, to be Superintendent of the Chikmagalur Jail, *vice* Mr. S. Venkat Vardaiengar, M. L., B. A., appointed to act as Deputy Commissioner, was gazetted, and copy communicated to the Inspector General of Prisons.	3rd do	
6	In reply, the District Judge of Nagar was informed that the Chief Commissioner will await further information as to the disposal of the case of criminal misappropriation of a Court fee stamp of 70 Rs. value in the Court of the Subordinate Judge of the Chitaldroog District, and trusts that no pains will be spared in bringing the offender to justice.	Do do	
7	A notification investing Mr. T. Raghavendra Rao, Officiating Subordinate Judge, Kadur District, with the jurisdiction of a Judge of a Court of Small Causes for the trial of suits cognizable by such courts up to the amount of Rs. 500 within the local limits of the town of Chikmagalur, was gazetted.	4th do	
8	The petition from Samuel, Police Peon in the Betmangala Taluk, was forwarded to the Deputy Commissioner of Kolar, with a request that the petitioner may be warned against petitioning the Chief Commissioner in matters of departmental appointments, which course, if persisted in, will lead to his being punished.	Do do	
9	In reply, the Commissioner of the Nilgiris was informed that an application for the reduction of duty on agreements to labor in coffee plantations was made to the Government of India, at the instance of the Coorg Planters' Association, but before receipt of the application, however, Government had notified a reduction of the stamp fee payable under the Indian Stamp Act on agreements executed for service or for performance of work in the coffee plantations in Coorg and in the Madras Presidency to one anna when the advance given under the agreement does not exceed Rs. 20.	5th do	18th Oct. 1879, Part II, Judicial.
10	Part IV of the *Gazette of India*, dated 24th January 1880, containing an Act to confer certain powers on religious societies, and Part	7th do	

No.	Subject and Order.	Date of Order.	Date of previous Orders.

45	Orders on the draft mining lease for the Urigam block in the Kolar District, submitted by Messrs. Tasker and Wilson, Solicitors, Madras, were passed and communicated to those gentlemen, to the Kolar Concessionaries, and to the Revenue Department.	12th do	3rd Nov. 1879, Part II, Genl.
46	Six copies of the Mysore Civil List as it stood on the 31st December 1879, were forwarded as usual to the Under-Secretary of State for India, India Office, London.	Do do	
47	In reply, the Post Master General of Madras was informed that, under the arrangement suggested, the Chief Commissioner is perfectly willing to accede to the request regarding the delivery of post cards in Mysore, and will at once withdraw the prohibition.—Communicated to the Amche Bakshi.	Do do	31st July 1879, Part II, Genl.
48	A petition from Venkatdasnayik, 1st Class Police Peon in the Yedatore Taluk, was forwarded to the Deputy Commissioner of Mysore, for submission of the petitioner's gratuity roll or a report of the circumstances under which gratuity is inadmissible.	13th do	
49	In reply to his petition, one Sivacharada Madappa, Soppinabide, Hale Agrahar, Mysore, was informed that the Chief Commissioner cannot give the order he prays for.	Do do	
50	A notification intimating that post cards posted at any Imperial Post Office in the Mysore Province and addressed to any place within Mysore Territory will, where no Imperial line exists, be forwarded and delivered by the Mysore Amche free of charge to the addressee, was gazetted and copy communicated to the Amche Bakshi and Post Master General, Madras.	Do do	10th instant, Part II, Genl.
51	Orders on the petition from certain residents of Narain Pille Street, Saint John's Hill, protesting against the erection of certain buildings on the premises attached to the Friend-in-Need Society intended for a hospital for the poor, were passed and communicated to the President, Cantonment Municipal Commission, to the Secretary in the Revenue Department, and to the Superintending Engineer.	Do do	
52	Copies of the Mysore Civil List as it stood on the 31st December 1879, were forwarded to the Government of India in the several departments and to certain other officers as usual.	Do do	
53	In reply, the Inspector General of Prisons was, with reference to the Superintendent of the Central Jail's request for exemption from paying the municipal tax on the house provided for him by Government as free quarters, informed that when Government purchased the house in question it took the place and accepted the obligations of the previous owner, and that, therefore, Government must now pay, as he did, the municipal taxes on it.—Communicated to the Superintendent, Central Jail, to the President, Municipal Commission, to the Deputy Accountant General and to the Secretary in the Revenue Department.	Do do	
54	In reply to his petition praying for suitable employment under this administration, Mr. C. Ranguchari, late Uncovenanted Assistant, Coimbatore, was informed that the Chief Commissioner regrets that he cannot comply with his request.	14th do	

No.	Subject and Order.	Date of Order.	Date of previous Orders.
55	The Superintendent, Government Press, was requested to supply the Deputy Commissioner of Kadur with 2,000 copies of toll-gate rahadaris bound together in books of 100 each.	14th Feb. 1880.	
56	The Assistant Conservator of Forests, Nundydroog, was requested to submit at an early date his estimates for 1881—82 and the indents for stationery and forms for the ensuing official year.	Do do	
57	In reply, the District and Sessions Judge, Nundydroog, was informed that the quantity of stationery now required by the Munsiff at Closepet for the use of his Office until the end of the year has not been specified.	Do do	
58	The Compiler, Mysore Gazette, was requested to recommence issuing a copy of the Gazette to the 2nd Assistant Commissioner, Shimoga District, if he has stopped sending it to that officer.—Communicated to the Deputy Commissioner of Shimoga.	16th do	
59	As requested by telegraph, the draft lease of the Kolar mines was returned to Messrs. Tasker and Wilson, Solicitors, Madras.	Do do	12th instant, Part II, Genl.
60	The Superintendent, Government Press, was requested to supply the Examiner, Public Works Accounts, with certain books in advance of his indent for 1880—81.	Do do	
61	Certain unserviceable tents were sent to Messrs. D'Silva & Co., Auctioneers, &c., Bangalore, with instructions for their disposal by auction sale.	Do do	
62	In reply to his petition, Mahomed Sileman, late Shekdar of the Anekal Taluk, was informed that his application for pension will receive attention in due course.	17th do	
63	A petition from Manchaiya, Patel of Kodakani in the Shikarpur Taluk, was forwarded to the Deputy Commissioner of Shimoga for submission of a report of the circumstances under which the allowance to Manchaiya has been stopped.	Do do	
64	With reference to his letters of the 17th March and 15th April 1879, remonstrating against the statements made in para 125 of Mr. Elliott's report on the Famine in Mysore, Surgeon-Major J. Henderson, Bangalore, was informed that Mr. Gordon has authority to tell him that his opinion that any charge imputing a want of interest, attention, or energy in the work of affording medical relief to the distressed would be particularly unjust and unmerited in his case, is shared by the Government of India.	Do do	5th April 1879, Part II, Genl.
65	In reply, Mr. S. B. Krishnasamaiengar, late Assistant Commissioner, Mysore Commission, was informed that his memorials of the 6th and 27th September last have both been forwarded to the Government of India, and that the Governor General in Council approves his being required to retire from the service.	Do do	
66	In reply, copy of letter dated 11th instant from the Superintendent, Central Jail, Bangalore, reporting on the price of jhuls and how it is fixed, was forwarded to Mr. S. Lee, Proprietor of the Woollen Factory at Bangalore.	Do do	5th instant, Part II, Genl.
67	A notification intimating that Mr. G. A. Watts, Assistant Apothecary, Shimoga District, officiated for Surgeon P. H. Benson, M. D., Civil Surgeon, Nagar Division, from 29th December 1879 to 11th January 1880, both days inclusive, was gazetted and copy communicated to the Deputy Surgeon General, Indian Medical Department.	18th do	
68	In reply, the Anche Baikshi was informed that in appointing Krishnappa to the post of Anche Sheristadar, the Chief Commissioner has made the best provision for him that it was in his power to do and that he can get no personal allowance.	Do do	
69	Copies of the sanitary report by the Sanitary Commissioner with the Government of India for 1878, were forwarded to the Judicial Commissioner, and to the Deputy Surgeon General, Indian Medical Department.	Do do	

No.	Subject and Order.	Date of Order.	Date of previous Orders.

Proceedings of the Chief Commissioner of Mysore in the Revenue Department, (Revenue),—dated 2nd February 1880.

READ—

Letter from the Deputy Commissioner of the Shimoga District, No. 186 of the 24th December 1879.
Letter from the Deputy Commissioner of the Bangalore District, No. 437 of the 2nd January 1880.

No. 5816-27—Ml. 286, DATED BANGALORE, 2ND FEBRUARY 1880.

ORDER THEREON.—Replies to the Chief Commissioner's Proceedings No. 4824-31—Ml. 234 of the 18th December 1879 have been received only from the Deputy Commissioners of the Shimoga and Bangalore Districts. The former officer reports that the present rates of mohatarfa on shops and trades are working satisfactorily and require no change, except in some minor detail. Mr. Ricketts apparently under the impression that no addition was to be made to the existing mohatarfa taxation in any case, proposes varying reduced rates of tax for shops so as to allow for the separate tax on the houses of the same individuals to be levied under the new arrangements. Thus his rates of shop tax not only retain the existing classification according to the quality of the shops, but are further varied in regard to different individuals with reference to the separate house tax to be paid by them, the owners of the larger houses paying in fact lower rates of shop tax for the trades carried on by them than the owners of poorer houses. There seems no occasion for this unless it be to compensate shop-owners of the exempted classes who have hitherto paid no house tax; but not only is the object of the new arrangements to sweep away such exemptions in municipal towns, but it is believed that such exemptions have not been allowed in regard to the separate municipal taxes hitherto levied.

2. Mr. Ricketts further proposes to exempt from the house tax, weavers, barbers, basket-makers and other petty artizans, levying only a mohatarfa tax on them. The more proper course contemplated by the new arrangements is to levy the house tax upon all houses without exemption, but to discontinue the levy of an additional mohatarfa or trade tax upon such classes of petty artizans upon whom the same is likely to bear with hardship.

3. In order to remove any misapprehensions of the above kind, the Chief Commissioner resolves to issue the following instructions on the subject:—

I. The house tax in municipal towns shall be levied on all houses without any exemption of any kind whatsoever, at the rates laid down in the Chief Commissioner's Proceedings No. 3362-73—Ml. 161, dated the 27th September 1879.

II. The tax on shops shall also be separately and additionally levied without distinction at the existing rates for the present. Any modification of these rates hereafter will depend upon any general re-classification which may be considered necessary with reference to the descriptions of trades carried on and the incidence of the tax upon them; but the shop tax and house tax are to be distinct items determined with reference to their respective circumstances and to have no connection with each other.

III. The taxes on oil-mills and carts will also continue to be separately levied at the existing rates. If any reduction of the higher rates of the former tax is considered necessary, it may be proposed, but only on the consideration of the profits derivable from the trade not justifying such high rates.

IV. With regard to the mohatarfa on looms and on petty artizans, it may be desirable to give it up altogether hereafter, but until some general arrangement could be made on the subject for the whole Province, the loom tax must also continue to be levied in the municipal towns; but such reductions may be made at once in the rates in the municipalities as may be considered necessary with reference to the fact of the men having to pay a house tax.

The mohatarfa on other classes of petty artizans may be discontinued, and the taxing of the trades where they are important will be left to the discretion of the several Municipalities, whose proposals on the subject however must be submitted for previous sanction.

4. It is only necessary to add that the object of the measures contemplated by the Chief Commissioner's Proceedings of the 27th September 1879, is to replace in the first instance in the municipal towns, the existing complicated arrangements in regard to mohatarfa and municipal taxation by one comprehensive system, which, by sweeping away all exemptions and inequalities, would make the taxes sufficiently productive, so as not to entail any loss of present revenue on Government, while the municipal wants are also provided for.

5. The Deputy Commissioners are requested to submit as early as practicable a report shewing the results of the re-adjustment of these taxes in the several municipalities within their respective districts, the rates and amounts of the Government mohatarfa and the Municipal house tax hitherto levied, as well as the rates and amounts of the taxes under the several heads as newly imposed, and the moieties thereof which will respectively go to Government to make up for the loss in the mohatarfa revenue and to the Municipalities for their municipal purposes. The statement submitted should shew the number of houses and other items taxed at each rate under the new arrangements.

C. RANGACHARLU,
Revenue Secretary.

To—The Deputy Commissioners of Districts.
" Deputy Accountant General.
" President, Municipal Commission, Bangalore.
Also to the Commissioners of Nagar and Ashtagram Divisions for information.

No. 5903-11—Rev. 1035, dated Bangalore, 4th February 1880.

Order.—With reference to the Opium Act and the Rules published in the Gazette and which will come into force from the 1st April 1880, the Deputy Commissioners of the several Districts are requested to give the widest publicity to them, especially amongst the cultivators of the poppy and traders in opium, and to notify to them that the cultivation of poppy and the manufacture, import, export and transport of opium are absolutely prohibited from the above date, that no one is allowed to sell opium excepting licensed vendors or licensed medical practitioners, and that no one is authorized to have in his possession more than three tolas of opium purchased from Government or from a licensed vendor or medical practitioner. Any persons who may be now in possession of opium should deliver up the same before the 1st April 1880 to the Deputy Commissioners, who will forward the same to the Deputy Accountant General. The article will be paid for if it is fit for use at cost price.

2. The arrangements contemplated are that the Mysore Government will import the opium required for local consumption from Malwa through the Deputy Accountant General, to whom the District Officers should from time to time apply for the quantities required for consumption in their several Districts.

3. The Deputy Commissioners are authorized to grant licenses for the retail sale of opium to any vendors and medical practitioners, in the forms appended to the Rules. As the extremely limited demand for opium in this Province affords but little inducement to persons to trade in it, and as it is important that there should be no dif-ficulty in the way of persons readily obtaining opium for medical purposes or otherwise, care should be taken that no impediments are thrown in the way of persons obtaining licenses except on the ground of doubtful character. The Deputy Commissioners are requested to propose the quarterly fee to be paid by the vendors for their licenses, but no fees are leviable from medical practitioners.

4. The vendors should obtain the opium from the Deputy Commissioners in quantities of not less than 1 seer of 24 tolas weight at a time on prepayment of the price which will be hereafter fixed and intimated. But medical practitioners are not authorized to have in their possession more than 1 seer of opium. They may purchase a less quantity either from licensed vendors or from the Deputy Commissioners.

5. No retail price for vendors, either fixed or a maximum, is prescribed, and such will not be necessary so long as licenses are freely given to competing applicants.

6. The Deputy Commissioners should arrange to terminate all existing contracts and arrangements in regard to opium by the end of the current official year. They should, in due course, report the arrangements made by them in the matter, the licenses issued by them, the manner in which the public requirements in the matter are met, the prices at which vendors sell the article to the public, and whether there is any room for smuggling.

7. In conclusion it is necessary to explain that the provisions of the Act in regard to the cultivation of poppy and the manufacture of and trade in opium are entirely prohibitive, excepting to such extent as is specially permitted by the Rules.

C. RANGACHARLU,
Revenue Secretary.

To—The Deputy Commissioners of Districts.
Deputy Accountant General.

Proceedings of the Chief Commissioner of Mysore in the Revenue Department, (Revenue),—dated 19th February 1880.

From the Survey and Settlement Commissioner, Mysore, To the Revenue Secretary to the Chief Commissioner of Mysore, No. 136, dated Bangalore, 12th February 1880.

I have the honor to forward the appended *letter from the Superintendent, Mysore Revenue Survey, and accompaniments, proposing revised rates of assessment for the Honnavalli Taluk of the Tumkúr District.

*No. 73 of 2nd February 1880.

2. The report on this taluk was compiled by Major Rutherfurd, Deputy Superintendent, as regards the revenue proposals contained therein, under the direction of Major Grant with whom I had previously discussed the general nature of the proposals to be made regarding the rates of assessment to be imposed and the revenue to be obtained under the coming settlement. The proposals regarding rates of assessment now made have therefore my entire concurrence.

3. Up to para 20 Major Rutherfurd's report is statistical and descriptive, and there is no need to follow him into the details there given beyond to summarize the facts stated in a few words. The taluk has a fairly good rain-fall, and is well off in accessibility by made-roads to large markets both in the taluk and outside it. Tiptur in the taluk is a first class market very much resorted to. The population 83 to the square mile on the whole area, and 124 per square mile of culturable area, is somewhat sparse even for the plain District of Mysore, but it has been much reduced during the late famine partly by deaths and partly probably by emigration; some portion of the latter may still return. The present number of cattle 52,300 though they are said to have been much reduced during the famine is still very large.

4. Para 21 of Major Rutherfurd's report shews the past revenue history of the taluk. The data regarding past cultivation being in bijvari conveys no information as to area; these data may, however, give some approximative idea of comparative extent of cultivation at different periods, it would thus appear that between 1854—55 and 1866—67 there must have been an extension of cultivation to upwards of 50 per cent in rice and garden land. The entry of bijvari in 1877—78 appears to me of doubtful accuracy as it is not probable that the garden cultivation can have increased in that year by the amount of just 1,000 bijvari khandis; there is, I suspect, an error here of 1,000 by a misprint in the first figure, a decrease in the bijvari khandis recorded as cultivated in 1878—79 appears, but a decrease was to be expected in this year.

5. The actual collections of revenue shew considerable fluctuations in the 25 years. The first year, 1854—55, shews a sum of Rs. 73,660 collected, this increases up to 1865—66 when the largest amount collected in the 25 years appears Rs. 97,443. This year or one of the two following is ordinarily the year of highest collections in Mysore, as it was the time of highest prices. From 1865—66 a decrease sets in, but 1874—75 again shews an amount of Rs. 97,301, nearly equivalent to that of 1865—66. The collections of 1876—77 and the two following years were of course much affected by the famine. Still in the last something like the normal amount was again attained, the collections for that year being Rs. 91,098.

6. The increase in revenue collected between 1854—55 and 1878—79 is not commensurate with the stated increase in bijvari occupation in garden and rice land from which it may be assumed that the bulk of the revenue was derived.

7. At para 23 of the Deputy Superintendent's letter are shewn the nominal rates of assessment hitherto in force; a comparison of those rates with the proposed rates on land found by the survey to be in occupation will shew that the old rates could have been no more than nominal on garden and rice land, otherwise they must have given a very much larger revenue than has been hitherto collected. Rates such as those described as hitherto in force may doubtless have been collected here and there, as it is certain that much inequality existed in the old assessment as is always found to be the case.

8. Para 25 of the Deputy Superintendent's report shews the grouping of the villages for different rates of assessment and the maximum rates under each head proposed to be imposed which are in consistency with those already imposed in adjacent settled talukas. The following paras shew the result of the proposed rates on each description of land, Government occupied, Government waste and Inam under the separate heads of garden, rice and dry crop.

9. Para 35 shews the estimated result of the imposition of the proposed rates in comparison with the realizations of 1878—79 as follows:—

	Rs.
Land Revenue collections of 1878—79	91,098
Estimated revenue on Government occupied according to the proposed rates	1,09,146
Increase Rs.	18,048

But from the above sum in excess of past collections we have first to deduct the sum of Rs. 8,000 estimated as required for the remuneration of the village officers whose direct grain levies

from the ryots are abolished by the settlement. The ryots thus obtain the removal of a burden at least equal to the amount of revenue imposed in commutation. But farther a sum of Rs. 3,552 is estimated as the amount of irrigation cess on Government lands, thus making up a total sum of Rs. 11,552 to be deducted from the above estimated increase so far as the State revenue is concerned, leaving the net increase at Rs. 6,496. Again, out of this we have to allow for the probability of some lands recorded by the survey as occupied being resigned at the settlement, as it is always the practice of the ryots at the time of the survey to point out more land as in their occupation than they have hitherto really ever occupied in order to secure the refusal of it at the settlement. It may therefore be safe not to reckon upon an increase of revenue beyond Rs. 3,000 to Rs. 4,000 as the result of the settlement. Should the increase prove greater than this it will be from resignations being less than may be anticipated or from their being counterbalanced by lands newly taken up from waste.

10. The realizations from grazing and fruit trees are taken at the same amount both before and after the settlement; the latter item for the most part merges in the survey assessment so far as regards fruit trees in occupied land. Those in Government waste will of course be sold by auction as hitherto. The grazing of the surplus Government waste, after a due assignment has been made to the village for free grazing, will be sold by auction annually and the realizations on this account will probably shew some improvement in a year or two.

11. The Government arable assessed waste land is of very considerable extent and value, a total area of acres 63,746 bearing survey assessment Rs. 43,228. But nearly six-sevenths of this consists of dry crop land in which I do not look for any great immediate extension of cultivation. The unoccupied garden and rice lands amount to acres 1,714 bearing survey assessment Rs. 6,817; I should expect that some considerable proportion of this would be occupied in the course of the next few years and the revenue be improved in proportion.

12. Though no large increase of State revenue can be looked for at once, yet it appears to me that in a few years, as the effect of the famine passes away, this taluk will under the settlement give a revenue very materially in excess of what has been ever realized hitherto.

13. As regards local funds the realizations hitherto have been from half anna cess Rs. 3,055. The one anna local cess on Government occupied lands will give, it is estimated, Rs. 6,822 and the same cess on minor inams Rs. 508, a total of Rs. 7,320. This should enable a great deal to be done in minor local improvements both in education and in communications.

14. I beg that this letter may receive as early consideration as may be convenient; it should have been submitted a full month back, but an accident in the post delayed my receiving the papers for fifteen days and then I found it necessary to return the whole to the Superintendent for correction of erroneous figures in the Deputy Superintendent's report.

From the Superintendent, Mysore Revenue Survey, To the Survey and Settlement Commissioner of Mysore, No. 73, dated Tiptur, 2nd February 1880.

I have the honor to forward the marginally noted papers on the revision of the assessment of the Honnavalli Taluk of the Túmkúr District and to request that sanction to the proposed settlement may be obtained so as to admit of my giving out the rates about the middle of the current month.

1. Mysore Revenue Survey Deputy Superintendent's report No 1314, dated 20th December 1879, with its accompaniments.
2. Mysore Revenue Survey Superintendent's letter No. 1119, dated 20th idem.
3. Túmkúr District Deputy Commissioner's letter No. 322, dated 28th idem.

2. The report on this settlement has been compiled by Major Rutherfurd, Officiating Deputy Superintendent, Revenue Survey, but only after the fullest discussion of the subject, between him and myself, in all its bearings. I need scarcely say therefore that I fully approve of the proposed settlement which is based upon the rates already sanctioned and working successfully in adjoining settled taluks.

3. The Deputy Commissioner in his letter No. 322 of the 28th instant expresses his opinion that the rates now proposed are fair and moderate on the whole, and in support of his opinion compares the average rates in the adjoining Taluks of Budihal, Haranhalli and Chiknayakanhalli with those resulting from the settlement now proposed for Honnavalli.

4. In para 1 of his letter the Deputy Commissioner alludes to the effect of the recent famine upon the irrigated gardens near Nonavinakere and Vignasante and expresses some doubt whether

the rates might not justly have been reduced. In the particular locality alluded to as well as throughout the taluk generally the effect of the recent famine has been allowed as much weight as it was entitled to in fixing the garden assessment which, however, it is almost superfluous to say, is not based upon the exceptional circumstances of one or two seasons, but on a fair general average of seasons.

5. The large proportion of good rice land lying waste is a feature not unusual in the central taluks of Mysore. In the Haranhalli Taluk much the same state of things was found to exist in this respect as has now attracted the attention of the Deputy Commissioner. I do not think that anything would be gained by reducing rates which are already moderate to something still more moderate in the very uncertain hope of ensuring the occupancy of the waste rice land. I do not think the rates will be found to stand in the way of the wet lands being taken up when it suits the inclination of the people to cultivate them. The effect of the proposed rates on the occupied rice lands has been to keep the assessment at very much the same amount as was paid last year.

6. I think the proposed settlement will be found to work well. It is true that the effect of the recent famine has been to reduce the population of the taluk to very great extent, the partial census taken in 1878, with Halkurki as the test Magni, inducing the Famine Commissioner to estimate the population at 35,825 in 1878 as compared with 56,882 in 1871. The classification census, which however makes no allowance for the moving population and for inam villages, shews a population of 27,788 souls. There has beyond doubt been great mortality during the famine amongst the very poorest classes. If we can trust the figures above given, some 20,000 people have either died or gone elsewhere to seek a livelihood. We may expect some of them to return if I may judge from my experience of other taluks settled last year, but, be that as it may, it is clear beyond all doubt that Honnavalli has suffered greatly from the famine. The Deputy Commissioner on the other hand in his letter No. 254 of the 6th October last records a favorable opinion, in which I fully concur, of the condition of the people in ordinary years and alludes to the cocoanut cultivation, for which the taluk under report is famous, having stood the late drought much better than the supari gardens.

7. Great as the loss of population has been I see no reason whatever to adopt lower rates of assessment than those now proposed which are intrinsically moderate.

8. I expect to see a considerable extent of land resigned at the settlement, to be taken up again gradually as the taluk resumes its normal condition.

9. In Chief Commissioner's Proceedings No. 4875—G. 60 of the 16th August 1877, it was directed that the proposal by the Commissioner of the Nundydroog Division to transfer the Maguis of Turuvekere and Dabbegatta from Kadab to the Honnavalli Taluk should be reported on at the time of the survey and settlement of the latter taluk. I am of opinion that such transfer is not at present called for as the question of a general adjustment of taluk boundaries is under discussion as ordered by the Chief Commissioner in his Proceedings No. 1649-63—R. 304 of the 31st July 1879.

10. The submission of these papers has been very greatly delayed owing to a prolonged correspondence on points in the Deputy Superintendent's original report requiring explanation. I have made all my arrangements to commence the settlement on the 15th instant.

From the Officiating Deputy Superintendent, Mysore Revenue Survey, To the Superintendent, Mysore Revenue Survey, No. 1344, dated Bangalore, 20th December 1879.

I have the honor to submit the following report on the revision of the assessment of the Honnavalli Taluk of the Túmkúr District of the Nundydroog Division.

Boundaries.

2. The taluk is bounded on the north and north-east by Budihal; on the south by Chanaraypatna, on the east by Chiknayakankalli and Kadab, and on the west by Haranhalli.

Subdivisions.

3. The taluk is divided into 6 Magnis, comprising the villages and kavals shewn in the following statement :—

No.	Magni.	Number of Government Villages.	Number of Inam Villages.	Kavals.	Total.
1	2	3	4	5	6
1	Honnavalli	67	..	1	68
2	Hulkurki	31	3	1	35
3	Tiptur	55	1	1	57
4	Nonavinakere	48	..	3	51
5	Ichmur	67	..	2	69
6	Handankere	38	..	..	38
	Total ...	306	4	8	318

This report refers to the Government villages only, and in all calculations of area, &c., the inam villages are not included except where specially mentioned.

Area.

4. The total length of the taluk from north to south is 34 miles, and from east to west 23 miles at its broadest part, with an area of about 344 square miles. The northern Magni of Handankere consists of a comparatively narrow strip.

Physical characteristics.

5. The general appearance of the taluk is not unlike that of Haranhalli, being undulating with here and there slight elevations which can scarcely be called hills. In the extreme north and west, however, there are rocky hills, which are spurs of ranges of hills in Budihal and in Haranhalli (Hirekalgudda), respectively.

Rain-fall.

6. From the returns furnished by the Amildar for 15 years the annual average rain-fall for the whole taluk appears to be 21 inches. I would estimate it to be at least 25 inches: the northern portion near Budihal getting about 20, and the southern 30 inches.

Climate.

7. The climate is on the whole healthy. In the cold weather fever is prevalent.

Soil.

8. The soils vary to a considerable extent in different parts of the taluk. In the northern magnis they are more or less gravelly; in the centre and south they are reddish, with an admixture of sand in the high lying, and dark-brown in the low lying lands. In Ichmur there is an extensive area of stony soil of an inferior description. Black soil is very seldom met with.

Dry crops.

9. The principal dry crops are ragi, avare, horse-gram, chillies and tobacco, with patches of castor and other oil plants.

Wet crops.

10. Rice and sugar-cane. The former is grown principally below the amani tanks, and double crops are raised notably below the Kardi, Nonavinakere and Ichmur tanks. The latter, for some unaccountable reason, is cultivated to a very limited extent, although the supply of water is sufficient, and the soil suitable. Wheat is also produced.

Garden crops.

11. The gardens are almost entirely cocoanut, irrigated and unirrigated, and where not actually below a tank, are invariably either in close proximity, or in low lying ground. The cultivation of supari is limited to those gardens which happen to be exceptionally well situated, as regards position and water supply; and in these are also grown betel-leaf, plantains and vegetables, while ragi and sáme are produced in the dry cocoanut gardens. The average annual yield of nuts per tree is between 70 and 80. The cocoanuts of Honnavalli are celebrated for their flavour.

Tanks and Irrigation.

12. Wet lands are irrigated from tanks, there being no streams or nullahs of sufficient importance to admit of channel irrigation. The tanks are numerous, and some of them, especially in the south of the taluk, are of considerable size. The state of tank "bunds" and sluices is on the whole good. Stone wells are few: gundis or holes from 10 to 15 feet deep are numerous in the gardens, and are worked by hand or "yatam."

Cattle.

13. The cattle are of the ordinary breed. Many thousands died during the famine, and the losses then sustained by the ryots will not be made good for several years. Sheep also suffered severely.

Tenure and subletting.

14. The tenure is ryotvari. Holdings are sublet on terms very similar to those obtaining in adjoining settled taluks, and which have been described before.

Forests.

15. There are no forests in the taluk: scrub jungle is met with near the foot of the hills to the north and north-west, and the wild date grows freely in the low lying lands.

Roads.

16. The imperial road from Bangalore to Shimoga passes through Tiptur, the head-quarters of the taluk. Two district roads branch off a few miles west of Tiptur, one northwards through Honnavalli to Huliyar in Budihal; the

other in a south-westerly direction, *viâ* Gandasi to Hassan. Another district road connects the market town of Nonavinkere in the south-east with Tiptur. Country carts have no difficulty in traversing every part of the taluk: cross country tracks being numerous and open nearly all the year round.

Markets.

17. There are 3 weekly markets held within the taluk; *viz.*, at Tiptur, Honnavalli and Nonavinkere, the first of which is by far the most important, and lasts for two days. The value of the goods bought and sold at Tiptur is stated to be nearly 20,000 rupees. The ryots of the northern magni attend the market at Huliyar in Budihal Taluk.

Manufactures.

18. Woollen and cotton cloths are manufactured: both find a ready sale at Tiptur, and a large quantity of the latter is exported to Nagamangala, Túmkúr and other places.

Exports and Imports.

19. Cocoanuts (dried), ragi, chillies, tobacco, iron, &c., are exported, a considerable proportion finding its way to Dharwar and adjoining Districts. Thence are imported cotton, thread, and from Hubli brass utensils, from the Malnad supari, and from Bangalore salt, piece goods and other articles:—

Statistical information.

20. The statistics collected by the Classing Establishments are summarized in the statement given below:—

Villages.	Houses.	Population.	Square miles.	Cattle.	Carts.	Ploughs.	Market Towns.	Remarks.
1	2	3	4	5	6	7	8	9
306	7,196	27,788	335	52,306	407	5,406	3	

The population gives an average of 83 to the square mile on the whole area, or an average of 124 to the square mile on the culturable area only.

Past collections and prices.

20. The two following statements, compiled from the taluk records, shew in detail the collections for the past 25 years, and the prices that obtained during the period:—

Year.	Old (Maji Bijvari) in Khandis of 160 seers.				Total Demand.	Remissions.	Total Collections.	Remarks.
	Garden.	Rice.	Dry crop.	Total.				
1	2	3	4	5	6	7	8	9

1878—79	9 3 5	13 13 9	13 4 8	4 10 8	4 4 0	

22. On examining the statement of collections there appears to have been, with very slight fluctuations, a gradual but steady increase, up to the year 1865-66, when the amount realized (Rs. 97,443) exceeded all previous and subsequent collections. The collections for the year following fell to Rs. 90,798, but rose again, and continued pretty steady till the year preceding the famine, when they very nearly equalled the collections of 1865-66. During the famine of 1876-77 a remission of Rs. 15,272 was granted on account of loss of crops. This is the only case recorded since 1854-55. It will be noticed that an increase in the collections is not necessarily synonymous with increase bijvari area; in fact, just as often as not, the reverse is the case. The Amildar explains the inconsistency by stating that it is due to the practice of selling annually by auction the crops cultivated on batayi lands. In some years the cultivated area, though small, produces an excellent crop, and the bidding being brisk, the realizations are large. In other years although the actual area under cultivation may be extensive, the crops owing to deficient rainfall are poor; consequently at the sales, the biddings are low, and the proceeds proportionately small. With regard to the prices obtaining during the first part of the same period, it will be observed that the highest price paid for ragi, the staple crop was in 1866-67, the year succeeding that of the highest collections. During the latter part prices fluctuated more or less until the year 1876-77, when they suddenly rose from Rs. 3-1-2 to Rs. 16-4-0; this limit was exceeded in the following famine year when ragi was sold at the enormously high rate of Rs. 21-11-4 per khandi of 160 seers or 7 seers for Re. 1.

Remarks on past collections.

23. According to the data furnished by the Amildar the rates for lands previously unassessed are as follows:—

Oil nominal rates.

Dry Crop	From Rs.	0	5	0	to Rs.	0	10	0 per kolga.
	or from Rs.	0	7	8	to Rs.	0	15	4 per acre.
Wet ,,	From Rs.	0	8	0	to Rs.	1	0	0 per kolga.
	or from Rs	4	3	0	to Rs.	9	10	0 per acre.
Garden	From Rs.	6	4	0	to Rs.	13	8	0 per acre.

24. The Deputy Commissioner of the Túmkúr District on being referred to for any information he might wish to give on the subject of rates, &c., stated in his letter No. 254, dated 6th October 1879, that he had "no personal knowledge of the past revenue management of the taluk." He however gave some information regarding the resources of the taluk, and expressed an opinion that the ryots were contented and well-to-do, and that the cocoanut had withstood the drought better than the betel-nut gardens.

25. I have divided the taluk for the purposes of assessment into 3 groups, which, with the maximum rates proposed, are shewn below :—

Grouping of villages and maximum rates.

Group.	Number of villages.	Maximum Dry crop rate.	Maximum wet crop rate.	Maximum garden crop rate.
1	2	3	4	5
I	213	2 0 0	8 0 0	Rs. 16 for tank irrigated and Rs. 8 for well and unirrigated cocoanut.
II	52	1 12 0	8 0 0	
III	41	1 8 0	7 8 0	

In the first group are comprised the whole of the Nonavinkere, Ichanur and Tiptur Magnis, with the greater part of the Honnavalli Magni, all of which form together the centre and south of the Taluk. This group is unusually well off for roads, and the principal market is situated near the centre of it. The rain-fall is also superior. The second group comprises the Halkurki and part of the Honnavalli Magnis with a village of the Handankere Magni, and is not so favorably situated as the first group. The third group is composed of the whole of the northern Magni of Handankere (with the exception already noted) which is farther removed from roads and in important markets and in which the rain-fall is less.

26. The result of these rates on occupied lands is tabulated in the following statement :—

Result of proposed rates on occupied lands.

Group.	No. of Villages.	Garden.			Rice.			Dry crop.			Total.	
		Acres.	Assessment.	Average rate.	Acres.	Assessment.	Average rate.	Acres.	Assessment.	Average rate.	Acres.	Assessment.
1	2	3	4	5	6	7	8	9	10	11	12	13
I	213	12,007	38,371	3 3 1	1,582	6,972	4 6 6	43,437	38,237	0 14 1	57,026	83,580

3	306	*90,942	79,513	1,09,146	63,746	43,228	143,259	1,52,374	5,743	8,136	149,002	1,60,510
Area of unassessed grazing lands, roads, village sites, &c.											54,826	
Gross area of 4 Inam villages											4,977	
Gross area of 8 Amrut Mahal Kavals											10,705	
Total area of the Honnavalli Taluk, *i. e.* about 343 square miles											219,510	

30. In the following statement the old and new average rates are compared with each other, class by class, the area obtained by the survey being the basis of calculation. The rates on rice and garden are so mixed up in the old collections that it is almost impossible to separate them. I have therefore made one average for the two combined.

Comparison of old and new average rates.

* In the above sum an item of Rs. 117 under the head of miscellaneous has been omitted, and a further sum of Rs. 39, thrown out by the operation of eliminating fractions, account for the difference between the sum of Rs. 90,942 as above and the sum of Rs. 91,098 shewn as total collections in paras 21 and 35.

Proceedings of the Chief Commissioner of Mysore in the Revenue Department, (Revenue),—dated 19th February 1880.

Groups.	Dry Crop. Survey Acres.	Old Collections.	Survey Assessment.	Old average rate.	Survey average rate.	Rice and Garden. Survey Acres.	Old Collections.	Survey Assessment.	Old average rate.	Survey average rate.
1	2	3	4	5	6	7	8	9	10	11
I	43,437	28,914	38,237	0 10 8	0 14 1	13,589	38,464	45,343	2 13 3	3 5 5
II	7,853	4,442	5,162	0 9 1	0 10 6	2,495	8,026	8,127	3 3 6	3 4 1
III	9,508	3,991	5,371	0 6 9	0 9 0	2,631	7,105	6,906	2 11 2	2 9 11
	60,798	37,347	48,770	0 9 10	0 12 10	18,715	53,595	60,376	2 13 10	3 3 7

31. The above are the average rates for the whole taluk, class by class, and in para 25 are given the maximum rates from which they have been deduced. The incidence of the rates on the most common soils is approximately given below :—

According to Groups.	I.	II.	III.
Ordinary red soil producing one crop of ragi annually will pay per acre about ...	1·0	0·14	0·12
Rice land capable of producing one crop of rice annually will pay about ...	3·8	3 8	3·4
Rice land capable of producing rice and sugar cane in ordinary rotation will pay about.	6·4	6 4	6·0

The above rates are approximate only : the rates being affected by variations in the soil, supply of water, distance of field from village, size of village, and like considerations.

Average garden rates.

32. The capabilities of the gardens vary so much that, were the average rates given, they would be apt to mislead : they are therefore omitted. Each garden has been assessed on its individual merits.

Grazing and fruit trees.

33. The realizations under this head for the year 1878-79 were Rs. 948, and for the sake of comparison the future collections may be estimated at the same figure.

Local Cesses.

34. The amount realized under the head of local cess of ½ an anna in the rupee for the year 1878-79 was Rs. 3,055.

By the survey settlement the realizations under the heads of local funds and irrigation cess on minor inam lands will be as follows :—

	Rs.
Local cess of 1 anna in the rupee on cultivated lands	6,822
Local cess on minor inam lands	508
Equivalent of irrigation cess on minor inam lands	247
Total.....	7,577

Total result of the whole settlement.

35. Comparison of the realizations under all heads of land revenue for the year 1878—79, with those estimated for the year succeeding the introduction of the survey settlement, is made below :—

	Rs.
Land revenue	91,098
Grazing and fruit trees	948
Half anna local cess	3,055
Total under old system.. ...	95,101
Survey assessment of occupied lands	1,09,146
Grazing and fruit trees	948
One anna local cess	6,822
Do on minor inam lands	508
Equivalent of irrigation cess on do	247
Total under survey system.....	1,17,671

36. After deducting Rs. 3,552 on account of Government irrigated lands, and Rs. 247 on account of equivalent of irrigation cess on minor inams, to be credited to the District Irrigation Fund, the gross increase in the demands under the head of land revenue, excluding local cess, is Rs. 14,249. From this amount about Rs. 8,000 will be required for the payment of village officers. The immediate and direct gain to Government from the introduction of the survey settlement into the Honnavalli Taluk will therefore be about Rs. 6,249.

Grain payment to village officers.

37. The practice of paying grain levies to village officers obtains in this as in most taluks, and, as elsewhere, is evaded by those who are sufficiently independent to defy the Shanbhog. The rates of payment vary, and the payment is made sometimes in cash, sometimes in kind, occasionally in both. The Patels get from Batayi lands ¼ khandi rice for every cart-load, with the addition of Rs. 0-4-8 from each holder of wet land, and a certain number of cocoanuts annually from the holders of gardens, according to their means. They also get 1 khandi dry grain for every cart-load. The Patels get no Government pay: the Shanbhogs draw Rs. 3-4-0 per mensem. In the old Honnavalli Taluk of 4 Magnis, there were no Magni Shanbhogs, but in the two Magnis of Ichnur and Nonavinkere, transferred from Kadab Taluk, there are both Sthal and Magni Shanbhogs. Sthal Shanbhogs have inam lands and draw pay besides. Magni Shanbhogs get monthly pay of Rs. 12-11-0 and exact aya and mirasi as well from the ryots. After the introduction of the survey settlement the payment of these levies to village officers will be no longer exacted from the ryots, who will be thus relieved of what is very often a demand which it is difficult for many of them to meet.

Specimen villages shewing great increase and decrease.

38. In order to show the inequality of the old rates, a few villages are contrasted in the following statement :—

In detail. Statement A. No.	Class.	Name of village.	Old Assessment.	Survey Assessment.	Percentage Increase and Decrease.	Average garden rate.	Average rice rate.	Average dry crop rate.
1	2	3	4	5	6	7	8	9
					Increased villages.			
12	I	Anenhalli ...	191	324	70	2 13 7	3 0 0	0 11 11
43	I	Malenhalli ...	24	55	129	1 8 0	4 0 0	0 10 8
46	I	Kondligatta ...	253	472	87	1 14 2	4 7 1	0 12 11
					Decreased villages.			
51	I	Kardi Amani Kere ...	554	254	54	0 0 0	5 10 4	0 0 0
52	I	Kardal Amani Kere ...	42	12	71	0 0 0	3 5 4	0 10 8
23	II	Dumenhalli ...	953	782	18	4 11 8	4 12 10	0 12 11
32	III	Kodihalli ...	49	27	45	0 0 0	0 0 0	0 7 7

General remarks.

39. The area of waste (63,746 acres) almost equals that of the cultivated land, and a considerable portion of it consists of inferior soil. Of this area 62,032 acres are dry crop, 1,499 rice and 215 garden. During the famine, land of all three descriptions became waste, and though there is little probability of cultivation extending in the dry crop lands for a few years to come, the rice and garden lands, it is reasonable to expect, will be shortly taken up.

40. As already stated there are 8 Amrut Mahal Kavals in the Taluk, the total area of which is 10,705 acres. The grazing is on the whole fair. There is no valuable timber in any of them.

41. The Honnavalli Taluk suffered severely from the effects of the late famine, and from the diseases inseparable from such a calamity. The deserted villages and palyas, especially in the north, are very numerous; according to the returns furnished by our classers, the population has been reduced owing to deaths and migration, by nearly one half, a fact which, taken in conjunction with the existence of large tracts of inferior soil, may account for the enormous area of waste land.

Appendix B, Inam villages.

42. Appendix A or classwar statement is attached. As desired by the Chief Commissioner in para 44 of his No. 11152—316 of 1st February 1877, a list of all the Inam villages in the taluk is appended shewing the nature of the survey applied.

43. A supplementary report by Mr. Butcher, who conducted the classing operations of a portion of the taluk, is attached.

44. A sketch map of the taluk is also forwarded.

APPENDIX

Statement shewing the Area, Cultivation, Cattle, Carts, Ploughs, Houses, Population, of the Túmkúr District, reported on in Survey Deputy Superintendent's

Class.			Number.	Name of Village.	By Survey Accounts.												Last collection on cultivated lands.

From the Superintendent, Mysore Revenue Survey, To the Deputy Commissioner, Túmkúr District, No. 1119, dated Bangalore, 20th December 1879.

I have the honor, in accordance with the provisions of Chief Commissioner's order No. $\frac{1104}{15}$ of the 31st May 1873, to forward to you for perusal and return, with any remarks you may desire to make, a report No. 1344 of the 20th instant, by Major Rutherfurd, Deputy Superintendent, Mysore Revenue Survey, embodying proposals for the revision of the assessment of the Honnavalli Taluk of the Túmkúr District of the Nundydroog Division. Settlement reports hitherto have been submitted to the Commissioner of the Division, but under the new organization that course is no longer possible.

2. As these proposals have been most fully discussed between Major Rutherfurd and myself before being put in their present shape, they have of course my entire support and approval.

3. It can serve no useful purpose to follow Major Rutherfurd through his report which is perfectly clear on all necessary points. There is but one point connected with these proposals upon which any remark from me seems called for, and that is the amount of land likely to be relinquished at the time of settlement. In para 35 Major Rutherfurd compares the expected financial results of the proposed settlement with the realizations for the year 1878-79, and in para. 36 shews that after carrying out the two useful measures of establishing an Irrigation Fund and providing for the pay of village officers, there will be a net gain to Government, as a result of the settlement, of Rs. 6,249, but he makes no allowance for probable relinquishment of land.

4. I am of opinion that a good deal of land will be resigned at the settlement. The lesson read to the people by the late famine is so recent that I have very little doubt, and in this opinion I am supported by my experience of the Haranhalli settlement, that every possible means will be resorted to by the ryots with a view to contracting the extent of their holdings and consequently of their liabilities. As the taluk recovers from the effects of the famine I have little doubt cultivation will extend, but just at present the incentive is towards reduction of liabilities and towards this desirable end every facility will be afforded to the ryots. I should not be astonished were land bearing assessment of from 2,000 to 3,000 Rs. resigned at the settlement, but as I have already said it will in all probability be taken up again in a year or two.

5. As regards the rates upon which the proposed settlement is based, I can only observe that they are very strictly in accordance with those sanctioned for and working successfully in the Haranhalli and Chiknayakanhalli Taluks, it being impossible with any claim to consistency to make any great deviation from those rates in the present instance, considering the position of the Honnavalli Taluk with reference to the two taluks in question.

6. I shall feel much obliged by the return of these papers at your earliest convenience.

From the Deputy Commissioner, Túmkúr District, To the Superintendent of Revenue Survey and Settlement, Miscellaneous No. 322, dated Túmkúr, 28th December 1879.

I have the honor to acknowledge the receipt of your letter No. 1119, dated the 20th December 1879, regarding the proposals for the revision of the assessment of the Honnavalli Taluk. In the settlement of this taluk we are in a great measure tied down by the rates adopted for the neighbouring settled taluks, and therefore the proposed rates are in my opinion fair and moderate on the whole, as may be gathered from the subjoined abstract:—

Proceedings of the Chief Commissioner of Mysore in the Revenue Department, (Revenue),—dated 19th February 1880.

		Average Rates per Acre.								
		Dry.			Rice.			Garden.		
		Rs.	A.	P.	Rs.	A.	P.	Rs.	A.	P.
Budihal		0	7	9	2	12	8	4	0	0
Chiknayakanhalli ...	I Group	0	14	4	4	0	10	6	15	5
	II Group	0	12	4	3	10	11	8	2	3
	III Group	0	9	8	3	7	8	12	8	5
	Total Average.....	0	10	6	4	4	1	7	7	5
Haranhalli	I Group	0	15	8	4	2	8	4	4	5
	II Group	0	13	3	4	13	4	4	10	2
	III Group	0	12	1	3	9	5	3	9	8
	Total Average.	0	14	10	4	2	4	3	15	1
Honnavalli	I Group	0	14	1	4	6	1	3	3	1
	II Group	0	10	6	4	0	8	3	3	1
	III Group	0	9	0	3	6	4	2	9	4
	Total Average ...	0	12	10	4	5	3	3	1	8

The dry average rate proposed for the whole taluk is, I find, Rs. 0—12—10 and not Rs 1—3—11, as entered in Major Rutherfurd's report owing probably to an arithmetical error. The dry and garden rates are moderate and such as the taluk can on the whole well bear, though it is probable that garden rate proposed about Nonavinkere and Vignasante could justly be somewhat reduced having regard to the great sufferings of irrigated gardens during the late famine. In the I group of villages nearly one half of the available rice lands apparently of the same quality as those occupied are allowed to lie waste and the assessment proposed would probably be found not such as to offer any great inducement for their being taken up at any early time; but there possibly may be objections to make it any lower consistently with the policy of the settlement of the Haranhalli Taluk. I notice that the Handingere Sammat which suffered most during the late famine has been dealt with, with just leniency

2. In conclusion I share with you the apprehension that much land might be relinquished at the settlement and that there might not be left any immediate profit to Government after providing for the Irrigation Fund and village officers' remuneration.

3. I return herewith the original enclosures to the letter under acknowledgment and regret much that I could not attend to these papers earlier.

No. 6187-98—R. 1089, DATED BANGALORE, 19TH FEBRUARY 1880.

ORDER THEREON.—The foregoing papers contain proposals for the revision of the assessment of the Honnavalli Taluk in the Túmkúr District, comprising 306 Government villages besides 4 Inam villages and 8 Kavals.

2. Honnavalli is one of the Maidan taluks with few hills or jungles of any importance, but with an undulating ground consisting almost entirely of red soil. The taluk is irrigated by numerous rain-fed tanks and enjoys a moderate rain-fall. It is well provided with roads and markets, the weekly fair held at Tiptur being the largest in the whole Province. In regard to cultivation and other features it partakes more of the character of the Haranhalli and Chiknayakanhalli Taluks than of the taluks to the east. There is very little sugar-cane cultivation, but the taluk is rich in cocoanut gardens which are planted in irrigated as well as in unirrigated lands. Besides the

ordinary dry crops, ragi, avare, horse-gram and oil-seeds, chillies and tobacco are also grown. The population which was but sparse suffered considerable diminution during the famine.

3. The incidence of the proposed assessment on the several descriptions of land is shewn in the following statement :—

	Occupied lands.					Unoccupied arable waste.		
	Survey acres.	Survey assessment.	Average rate per acre.	Past collections.	Average rate per acre.	Survey acres.	Survey Assessment.	Average rate per acre.
Dry crop ...	60,798	48,770	0 12 10	37,347	0 9 10	62,032	36,411	0 9 5
Rice	1,858	8,039	4 5 3	53,595	2 13 10	1,499	6,433	4 4 8
Garden	16,857	52,337	3 1 8			215	384	112 7
Total.....	79,513	1,09,146		90,942		63,746	43,228	

4. The rates are similar to those adopted in the adjoining taluks of Haranhalli and Chiknayakanhalli and call for no remark.

5. The most noticeable feature is the large extent of garden lands in the taluk, which yields one-half of the land revenue. The extent of rice land is very small, for the large number of tanks in the taluk and even out of this, nearly one-half, is unoccupied, but it is presumed that a considerable portion of the lands irrigated by tanks consists of gardens. It will be useful if garden lands were classified into the irrigated and unirrigated and all the statistics shewn separately for each. It is requested that this may be done in future. The information called for in Proceedings dated 29th April 1879, No. 760—R. C, para 15, in regard to the extent of land assessed at each rate, would also be useful.

6. The area of unoccupied dry lands available for future cultivation is extensive, being as large as the area under occupation, but the prospects of their being taken up for cultivation are remote. The attention of the Deputy Commissioner is, however, drawn to the large extent of rice land remaining unoccupied. This cannot be attributed to the assessment, which cannot be considered to be so high as to check cultivation. Rice is not the food of the agricultural classes in these taluks, and the ryots, when they can get a dry crop, do not care to turn a profit from rice cultivation. The non-occupation of the lands may be also due to a feeling of uncertainty in regard to tenure occasioned by the Batayi system and perhaps to difficulties thrown in the way by the Shanbhogs and other influential classes who desire to reserve these superior lands to themselves though not able to cultivate them immediately. An enquiry may be made on these points and a report submitted in due course.

7. The total of the settlement on the occupied lands inclusive of the higher rate of local cess and of the irrigation cess merged in the assessment amounts to Rs. 1,17,671 against Rs. 95,101, the realizations of the previous year. The increase of Rs. 22,570 represents the addition made to the payments by the ryots, who, however, are in return relieved from any payment of fees to the superior village officials. The survey assessment of the occupied lands, exclusive of the local cess, gives an increase of only Rs. 18,048, from which deducting the contribution of Rs. 3,799 to be made to the Irrigation Cess Fund and the remuneration of village officers estimated at Rs. 8,000, the net increase by the settlement to Government will amount to only Rs. 6,249. But, as a considerable extent of the land under occupation

is expected to be relinquished during the settlement, the immediate result may be a slight decrease rather than an increase of the Government revenue.

8. The remarks of the Deputy Commissioner on the proposed rates are of a general character. They do not give any details as to how the rates based on general principles of classification bear on the circumstances of the individual villages. Para 33 of the Deputy Superintendent's report enumerates a few villages in which the settlement shews striking increases and decreases in comparison with previous collections, but no explanation is given as to whether any special grounds exist for this difference besides the general reason of the unequality of the old rates. There are doubtless good reasons in each case. It may be useful if the Deputy Commissioner or one of his experienced Assistants could, in company with the settling officer, institute at the time of the settlement an enquiry into the circumstances of those villages in which striking differences are shewn, especially where large reductions result in assessments which have hitherto been actually paid. These cases are but few, and the loss would seem in some cases to result from the past realizations on rice lands being high under the Batayi system owing to high prices.

9. The question of the rectification of the taluk boundaries and the transfers of villages required should be early reported.

10. The Deputy Commissioner should also report whether, as directed in para 17 of the Chief Commissioner's Minute dated 19th August 1878, measures have been adopted to simplify the boundaries of the Amrut Mahal Kavals in the District and to clear them of private rights upon the principles laid down in para 14 of the above Minute.

11. With these remarks the Chief Commissioner sanctions the introductions of the proposed settlement with the usual guarantee for 30 years.

Letter dated the 12th November 1879 from the Managing Director of the Neilgherry Brewery Company, Limited.

Chief Commissioner's Proceedings No. 9587—315 of the 11th March 1876.

No. 6377-85—REV. 1113, DATED MYSORE, 27TH FEBRUARY 1880.

ORDER THEREON.—The duty on country beer was originally fixed at two annas per gallon, and was afterwards raised in 1876 to four annas per gallon in the interests of the local abkari revenue, as it was believed that the article, owing to its cheaper price, was displacing the heavily excised arrack amongst certain classes of consumers. This was true to a small extent, but the Chief Commissioner believes that the consumption of the different classes of liquors depends on the habits of the several classes of consumers, and is not likely to be affected one way or the other by a small difference in the duty, though it is doubtless a matter for consideration whether the Government should forego any revenue justly derivable from the article. The import duty on English beer is one anna per gallon, but the price of the imported article is so much higher than the cost of the local manufacture that a reduction in the duty can-

not be required to promote the local manufacture, nor could such reduction be claimed in the interests of the consumers considering the much heavier duty levied on arrack. But having regard to the fact that the great mass of beer consumers consist of special classes amongst whom it is desirable to discourage the consumption of arrack by placing within their reach beer of wholesome quality at cheap prices, the Chief Commissioner is disposed to revert to the duty of 2 annas per gallon originally fixed. The alteration will take effect immediately both in regard to beer manufactured in Bangalore itself as well as that imported from Ootacamund and other places in India. There is no reason to apprehend that the reduction of the duty will affect the consumption of toddy.

Letters Nos. 7 and 8 of the 29th and 30th January 1880 respectively, from the Deputy Commissioner of the Hassan District.

No. 6369-76—MUNL. 319, DATED CAMP MYSORE, 27TH FEBRUARY 1880.

ORDER THEREON.—The Deputy Commissioner is referred to the instructions conveyed in Proceedings No. 5816-27—Ml. 286 of the 2nd instant.

2. The present scale of mohatarfa on shops lays down no principles upon which the shops are to be classified for the purpose of assessing the rates. The proposal of the Deputy Commissioner to classify the shops with reference to the annual value of the sales in them is well suited for adoption; but the Chief Commissioner is not prepared to pass any orders to modify the existing scale for the present year, as the subject requires general consideration on the receipt of the returns now called for from all the Districts. Meanwhile, in the event of the lower rate of Rs. 4, now provided for shops in Taluk Kasbas, proving too heavy for vegetable and other petty shop-keepers, a lower rate of Rs. 2 may be adopted in regard to them.

3. Exemption from house-tax is only to be allowed in the case of buildings which are the property of Government and those which are devoted exclusively to religious or charitable purposes.

4. Separate cattle-sheds in Municipalities are usually taxed, and, if situated in the midst of houses in the streets, it will be inexpedient to grant any exemption in regard to them.

5. Carriages and coaches in the minor Municipalities, where there is no regular system of taxing carriages, may be taxed as carts.

6. The revision of the house and other taxes in places other than Municipalities will be reserved for future consideration.

No. 6386-94—REV. 1114, DATED MYSORE, 28TH FEBRUARY 1880.

ORDER THEREON.—The Chief Commissioner has had under his consideration the replies received from the several Districts to Proceedings No. 8936—59 of the 20th January 1879, in regard to the manufacture of earth-salt, and, with reference to the orders of the Government of India, resolves to issue the following instructions on the subject:—

(I.) The system of farming out the manufacture should be at once discontinued.

(II.) Licenses for the manufacture should be taken out from the Deputy Commissioners for each pan, such licenses being given only for the existing pans, or pans which may be opened in substitution of others already in existence and which may fall into disrepair.

(III.) Duty should be levied on each pan so licensed at rates which should be fixed by the Deputy Commissioners with reference to the productiveness of the locality, but it should not be less than 3 rupees per pan per annum in any case. The land assessment on arable lands used for the manufacture of the salt should be paid irrespective of the above duty.

(IV.) The export of earth-salt beyond the limits of the Province is prohibited.

2. The sanction of the Government of India has been applied for for extending the penalties provided in Notification No. 287 of the 6th February 1874, to the export of the salt beyond the Province generally, as well as to the unauthorized manufacture of the article without license.

Proceedings of the Chief Commissioner of Mysore in the Revenue Department, (Financial),—dated 26th February 1880.

READ—

Circular Order No. 1214-23—R. 248 of the 3rd July 1879, calling for a report on the securities to be taken from officials responsible for the safety of public money.

The following replies to the above Circular:—

Docket from the Deputy Commissioner of Kolar, No. 602—183 of the 5th May 1879.
Letter from the Deputy Commissioner of Kadur, No. 632, dated 16th July 1879.
Letter from the Deputy Commissioner of Chitaldroog, No. 157, dated 22nd July 1879.
Docket from the Deputy Commissioner of Bangalore, No. 104, dated 23rd July 1879.
Letter from the Deputy Commissioner of Túmkúr, No. 68, dated 12th August 1879.
Letter from the Deputy Commissioner of Shimoga, No. 96, dated 29th August 1879.
Letter from the Deputy Commissioner of Mysore, No. 1576, dated 23rd December 1879.
Letter from the Deputy Commissioner of Hassan, No. 1157, dated 24th December 1879.

No. 6356-64—Mis. 639, DATED BANGALORE, 26TH FEBRUARY 1880.

ORDER THEREON.—The Chief Commissioner considers it necessary that a uniform system should be followed in regard to taking securities from officers who are responsible for public money. The accompanying list represents the officials from whom securities should be taken in the Revenue Establishments in the Districts, and the amount of security to be demanded. It is based upon existing arrangements with a few slight alterations; but the amounts entered refer only to securities in money, *i. e.*, actual cash, or Government Promissory Notes or deposits in Government Savings' Banks, which could readily and without difficulty be converted into money when required. Having regard however to the fact that the securities available in the Province consist chiefly of land and houses and seldom of money investments in Government paper, the Chief Commissioner will not object to taking the whole amount of the security required in immovable property in the cases of officials from whom a security of Rs. 500 and under is required. In cases where larger amounts of securities are provided for, one half of such securities may be in landed property and the other half in money. Provided that, where security in immovable property is thus taken, in lieu of money, it should be for double the amount of the money security provided for. Care should be taken that the landed property admitted is free from other claims or incumbrances, and is of a kind not subject to deterioration or great fluctuation in value, or at least that ample allowance is made in the valuation for such deterioration, and that the bond is executed by all the parties who possess a right or have any claims on the property.

2. Personal securities are in no case to be admitted, and where the security demanded is small, that is, not above 100 Rs., money security should be required to save the trouble involved in the institution of the necessary enquiry and the execution of bonds for securities of landed property.

3. As at present the sufficiency of the securities in each case should be enquired into at the close of every year and reported.

4 The Chief Commissioner does not consider it necessary to take any security from Treasury Accountants and Nagadi Gumastas who, though they keep the accounts of the Treasury transactions, are not directly and regularly in charge of money, but securities from Taluk Sheristadars who are in immediate charge of Taluk Treasuries are provided for.

Proceedings of the Chief Commissioner of Mysore in the Revenue Department, (General),—dated 5th February 1880.

No. 5933-41—F. 733, DATED BANGALORE, 5TH FEBRUARY 1880.

ORDER.—The accompanying extracts from a memorandum on the Malachra Capitata plant, and the fibre made out of it, are circulated for the information of the Deputy Commissioners of Districts and the Assistant Conservator of Forests of the Nundydroog Division. A pound of the seed has been applied for, and, when received, will be distributed for experimental cultivation.

2. The economical value of the experiment will depend upon the facility with which the plant is grown in lands not useful for more valuable products, and the quantity of the fibre yielded. The results of the experiment should, in due course, be reported to this Office.

C. RANGACHARLU,
Revenue Secretary.

To—The Deputy Commissioner of Bangalore District, with reference to Proceedings No. 5291-2—654, dated 9th January 1880.
„ Deputy Commissioners of other Districts.
„ Asstt. Conservator of Forests, Nundydroog Division, with reference to his No. 213—93, dated 2nd February 1880.

Extracts from a Memorandum on the Malachra Capitata Fibre Plant.

* * * * * *

The *third* specimen submitted with the said report was obtained from an annual plant of the natural order *Malvaceæ—Malachra capitata.* About this plant Dr. Gray stated as follows :—

"It is originally a native of Brazil, but now grows abundantly in waste places in Bombay during the rains. It attains a height of from five to six feet, but by a little care in its cultivation it can easily be made to grow to a much greater height, and the quality of its fibre would at the same time be improved."

He further added that—

"It is a fibre possessing valuable qualities for the manufacture of textile fabrics, and one which fully merits further development."

* * * * * *

When the *Malachra* fibre was sent to the Bombay Hemp and Jute Mill for opinion on its qualities, the Manager wrote to the following effect :—

"I have received, through your pupil Mr. B. A. Gupte, a sample of a nicely-cleaned, new fibre taken from a jungle plant, and it being new it gave me extra pleasure in testing it ; and I can safely say that the new fibre is quite as good as jute. If this new fibre can be grown in quantity it will be a great thing and a boon to this Presidency. The fibre is actually not the yarn of jute, nor do I know its true name. It seems like what the natives call Ranee* Bhendee or Jungle Bhendee ; but even that is doubtful, as Bhendee is scarcely so good as this fibre."

* Rán Bhendee is the wild variety of the Tural or *Hibiscus esculentus.* It is, therefore, not this fibre.

"The fibre is in length from eight to nine feet, thoroughly clear from gummy substance and dirt, has a nice silvery appearance with a peculiar lustre, and is almost as soft as silk. In passing the fibre through the machinery damped with oil and water, as is commonly done with Bengal and Konkan jute, yarn was produced strong enough and nearly equal to that made from the second quality of Bengal jute. In the opinion of our European spinning master, owing to the almost

imperceptible difference between the yarn made from the new substance and Bengal jute, it is very suitable for weft ; but if the plant is carefully grown and well looked after, the fibre would then, no doubt, rank fully equal to Bengal and Bombay jute. Owing to the high prices ruling for jute in Bengal and elsewhere, the new fibre, if carefully prepared, would command a ready sale at Rs. 3-12 to Rs. 4 per Indian maund."

* * * * * *

In his note, dated 15th April 1878, J. E. O'Conor, Esq., states about this plant as follows :—

"The utilization of this plant would be specially advantageous to the Bombay Presidency, where attempts made to grow jute can hardly be said to have had any * success. But the plant seems to merit attention in Bengal too, growing as it does and flourishing without any attention in marshy soil, of which we have more than enough for all purposes in Lower Bengal. It would seem to offer the spinners and paper-makers an excellent substitute for and in addition to jute. I believe the Bally Paper Mills Company are anxious to find out some fibrous product capable of conversion into paper at low cost. Here is one to their hand, and I beg to recommend it to their attention, as well as to that of jute spinners and rope and twine-makers."

* He was, it seems, not aware of the experiments made on jute cultivation by Dr. W. Gray.

* * * * * *

Mr. S. H. Robinson states :—

"I have no doubt this fibre would prove a good substitute for jute for most purposes to which jute is applied ; but it seems rather more harsh, and its spinning qualities should be tested in one or two jute mills before giving a very decisive opinion. To ascertain whether it would prove economically a substitute for jute, we should require to know the yield of fibre per bigha or acre and the cost of cultivation and manufacture."

Mr. W. H. Cogswell writes :—

"This sample is *beautifully bright and clean*, fair length, and *good strength* of staple, but somewhat harsh. I do not know if it would make a good warp yarn in itself, but mixed with good jute it would do so. The fibre for spinning is not so valuable as jute ; it lacks the forked ends, when broken, such as the latter possesses, and 'Meshta' which when broken looks as though it had been cut and left with square ends. Before its value as a spinning fibre could be fairly assessed in competition with jute, it would be needful to shew cost of production, out-turn per bigha, &c., &c."

* * * * * *

The Modes of cultivating the Plants and of extracting Fibres from them.

In a shaded and low piece of ground, beds or ridges of clay should be raised almost six inches above the surface of the ground, and some stable stuff, or farm-yard manure, or sheep-fold manure, or any other decomposed animal refuse should be spread over them and mixed with the clay. Each bed may be kept from 2 to 3 feet in breadth, with interspaces not less than a spanful in width. Soon after the first showers of the rains, in the beginning of June, the seed should be thrown, and lightly mixed with the soil by the hand. When the young crop grows about half a foot in height, it should be thinned by removing, for transportation, all those plants that may be lying too close to each other. It is advisable to have a space of about 4 inches ('8 fingers') between the stems of the adjoining plants, because, when they are allowed to grow too close, the strength of the fibre is interfered with. The only thing that is required to be done with the plants during the monsoons is that of dressing them lightly with some good manure if they are stunted in growth. When the lower fruits are fully formed, let the crop be cut, (leaving some portion for the seed,) at the roots, and tied into small bundles, each about six inches in diameter. These bundles should then be steeped in water for about eight days. In the meantime the farmer should occasionally visit the spot to examine these

stems, in order to ascertain whether the fibre can easily be separated from the stem, and whether the bark is sufficiently rotten to lose its hold on it. At this stage all the bundles should be taken out, one by one, and the fibre separated in the usual way in which "Taag" and "Ambádi" are separated. It is easily done by breaking the stem at a short distance from the lower end, and then pulling both the pieces out with the right hand, while the left hand holds the fibre firmly in its grasp. It is most advisable to wash it *immediately* in water, as it is found rather difficult to get rid of the bark and other gummy substances attached—to the jute in particular—when it is once allowed to dry in its original dirty state. It is also thought advisable to keep the fibre floating on water till the day's work is done, as exposure to moisture and to the sun in that state bleaches it the quicker. This is readily done by fixing in the pool four sticks in the form of a rectangle, the length of the rectangle being a little shorter than the fibre, and its breadth about one yard. Just at the level of the water, strings should be tied across the end-sticks, and the fibre thrown across them as soon as it is extracted and washed. The number of rectangles to be thus formed will depend on the quantity of fibre requiring accommodation. It then remains to dry the fibre and to tie it up into small bundles, each about six inches in circumference. It may then be packed up in bigger bundles or head-loads.

The importance of cleanliness all along the preparation of the fibre and the necessity of a careful supervision over the coolies for enforcing it, cannot be too strongly urged, as the cleaner the stuff the more readily does it command sale and the more the price it fetches.

No. 6087-95—Mis. 599, dated Bangalore, 13th February 1880.

Order.—The Chief Commissioner considers that the existing gradation of Amildars, as laid down in Proceedings No. 6997—Genl. 1171 of the 17th October 1876, is in principle defective, providing as it does nearly the same number of officers in each grade excepting in the first; and he resolves to take advantage of the existing vacancies in some of the grades, to lay down the following revised scale which provides for a gradually decreasing number as the scale ascends:—

1st Class 3 at Rs.	...	...	...	...	250
2nd do 9 at „	...	...	...	...	200
3rd do 12 at „	...	...	...	...	175
4th do 18 at „	...	...	...	...	150
5th do 26 at „	...	...	...	...	100

2. The above scale provides for one less than the existing number of Amildars, as the Taluk of Gudibanda in the Kolar District will be shortly abolished.

3. The abolition of the Divisions and the difficulty of assigning a proportion of each grade of Amildars to each District further renders it necessary that these officers should be placed on a general list, instead of being apportioned to each Division as heretofore. Such a general classification is better suited to an important class of officers like the Amildars, and the same has already been adopted in regard to Munsiffs, the corresponding class of officers in the Judicial Department.

4. The total monthly cost of Amildars as now classified is Rs. 9,950 as against Rs. 11,000, the amount under the former classification, the saving effected by the arrangement being Rs. 12,600 per annum.

Proceedings of the Chief Commissioner of Mysore in the Revenue Department, (Educational),—dated 23rd February 1880.

From the Under-Secretary to the Government of India, Foreign Department, To the Chief Commissioner of Mysore, General No. 130, I. G., dated Fort William, 31st January 1880.

I am directed to acknowledge the Report on Public Instruction in Mysore for the year 1878—79, with your Review thereon, forwarded with your Secretary's letter No. 4895 - 77, dated 22nd December 1879.

2. In reply, I am directed to express general satisfaction with the result of the measures adopted for the development of education in Mysore. It is observed, however, that the outcome of collegiate education during the year 1878—79 has not been very successful, and the Government of India consider that your attention may be usefully directed towards arranging for the supply of a really high education in order that the Native Public Service in Mysore Province may thus be rendered more efficient.

From the Secretary to the Chief Commissioner of Mysore, Revenue Department, To the Secretary to the Government of India, Foreign Department, Calcutta, No. 6240—111, dated 21st February 1880.

In acknowledging the receipt of Under-Secretary Mr. Plowden's letter No. 130, I. G., of the 31st January 1880, I am directed to state that the existing Colleges at Bangalore, Mysore and Shimoga provide education up to the B. A. standard in the first institution, and up to the F. A. standard in the remaining two, and that the High Schools at the remaining District Head-Quarters train up boys for the Matriculation Examination. If these institutions do not turn out a larger number of students who have passed the higher examinations, it is due to the fact of the parents withdrawing their children too soon from the school. In some instances also the parents prefer to send their children to complete their University course in the larger institutions in Madras, which is rather an advantage to the boys than otherwise. Scholar ships are given in the local Colleges to promising pupils in poor circumstances to help them to complete their University course in the Colleges, and the object indicated by Government will be further secured by giving preference to the more highly educated in the selections made to public appointments.

No. 6273-81—Edl. 41, dated Bangalore, 23rd February 1880.

Order.—Communicated to the Officiating Director of Public Instruction in Mysore and the Deputy Commissioners of Districts for information.
